Sithrah,
where are you?

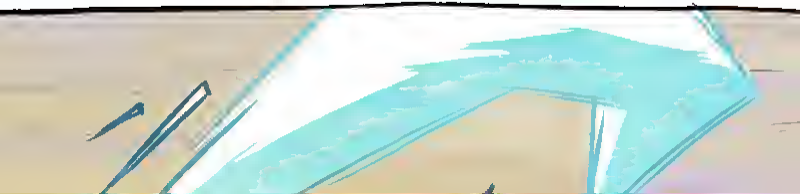
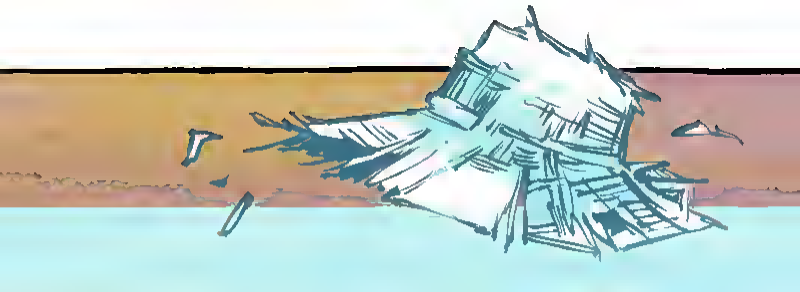
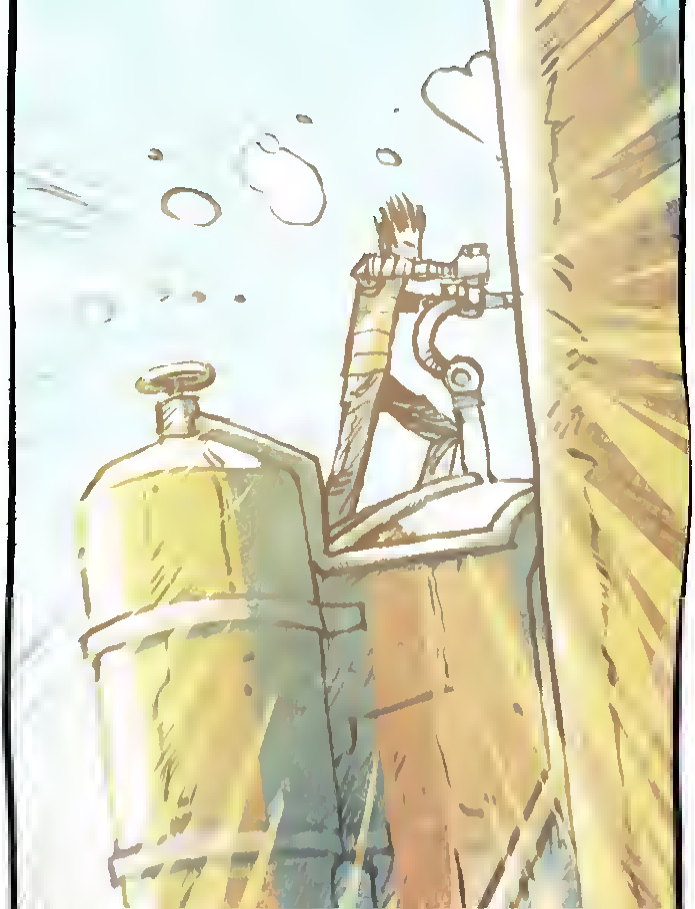
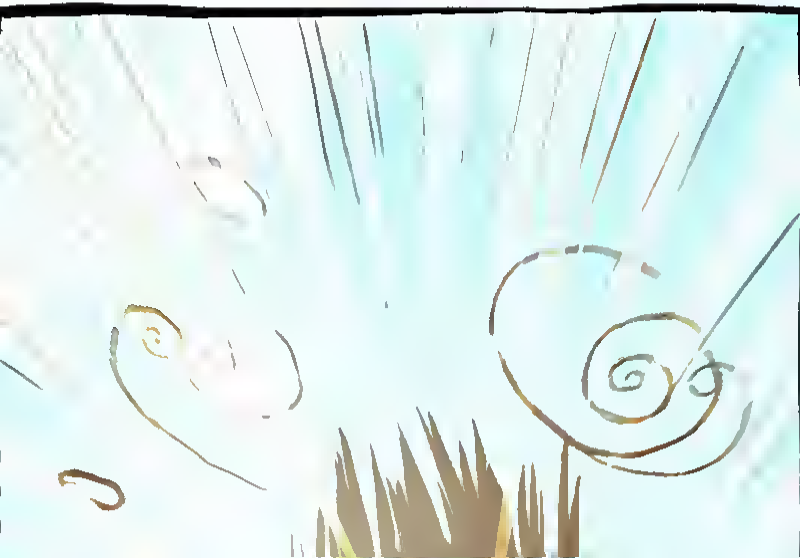
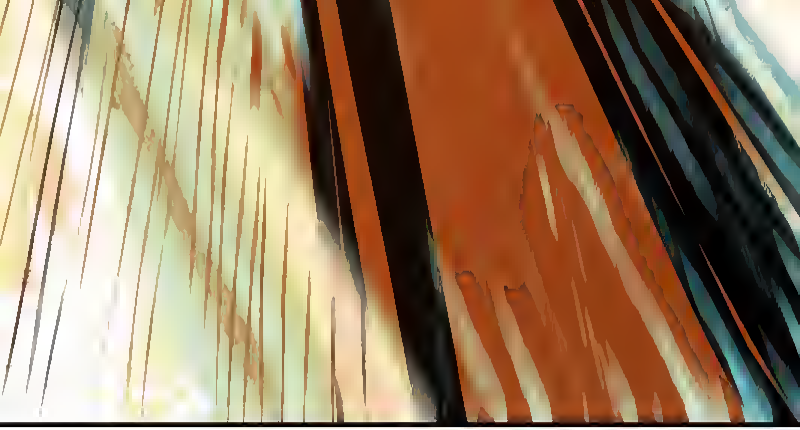
Moments before...



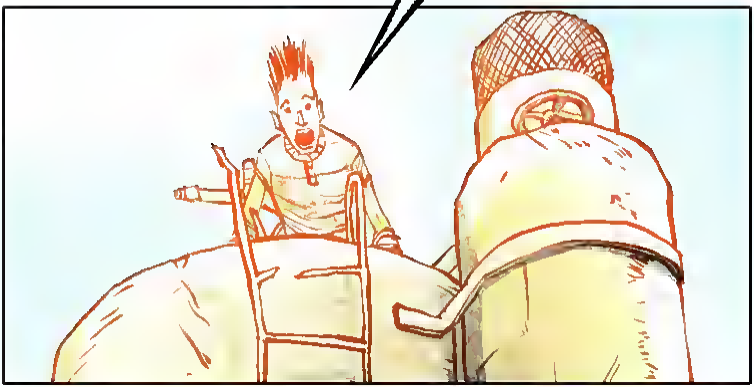




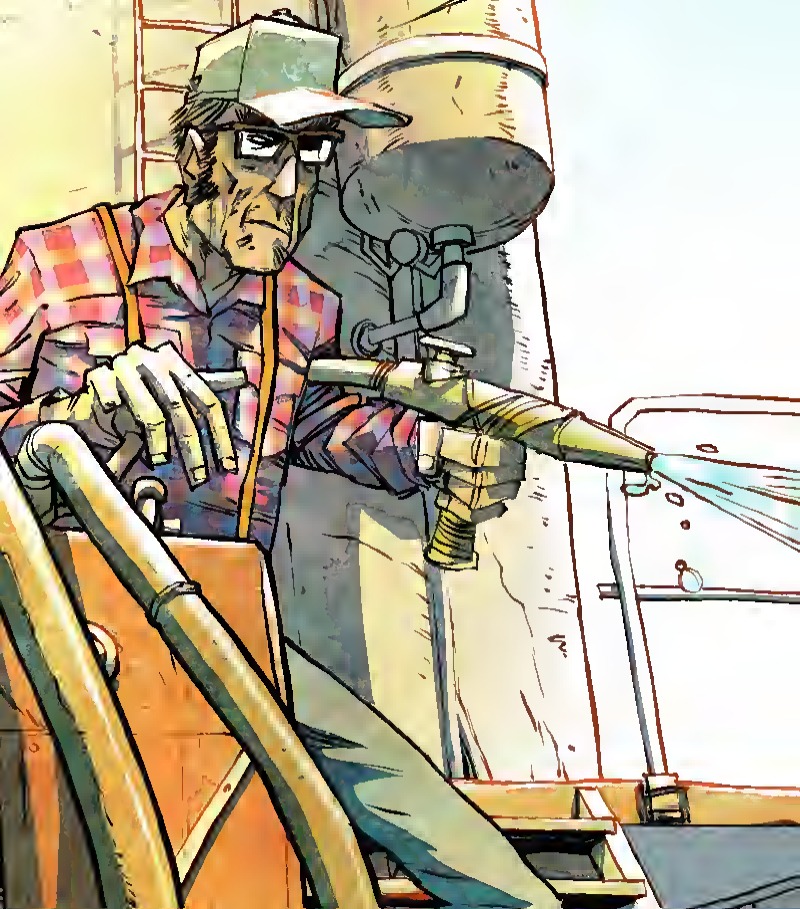




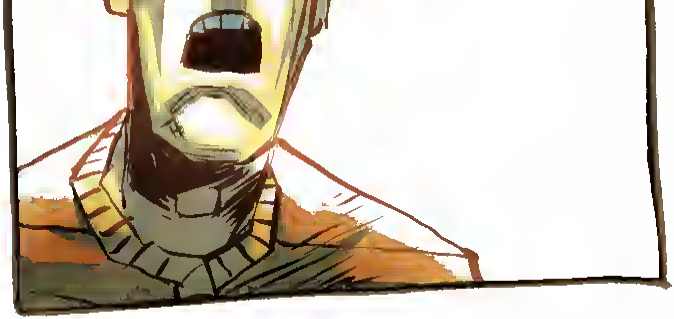
Turn off the water!



WHAT?



Turn off the water!
Quick!

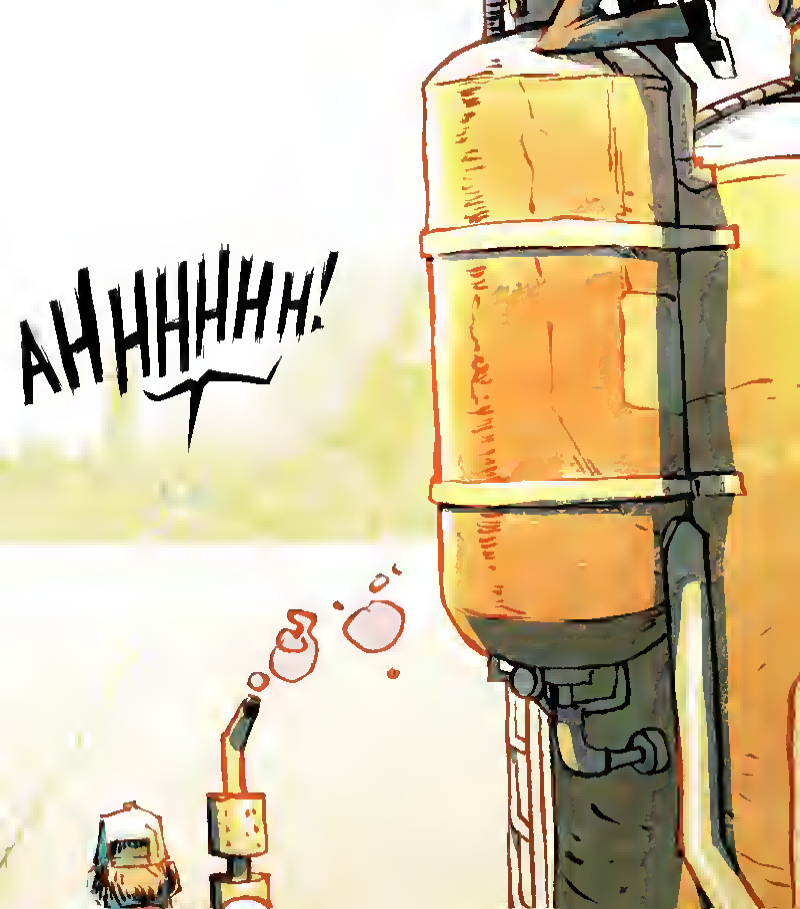


What is it, Dino?

I don't know!

I thought I heard something! Or maybe I felt something.

I don't know what it was but--



AHHHHHH!

Yonna?

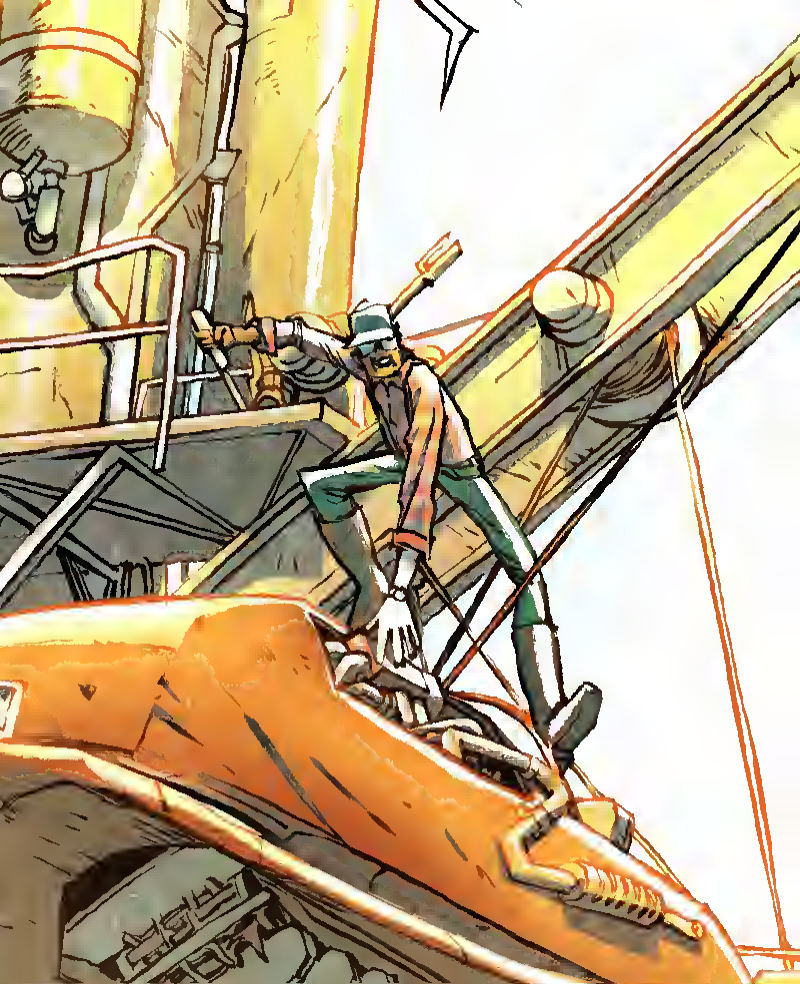
"It's Vonna! She's in TROUBLE!"

Dino was terrified that he might already be too late.

"We HAVE to get back to shore!"

This old bucket can't make it there fast enough...
...We gotta take the SandSki!

I just hope it runs.
You stay here and keep an eye on those Weebles.



"Don't let any of 'em
climb aboard!"
